DETAILED ACTION

1. Election/Restriction

A. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 2-5 and 10, drawn to a method of recruiting fibroblasts, classified in class 424, subclass 85.6.
- II. Claims 7, 8 and 11, drawn to a method of engrafting fibroblasts in a heart, classified in class 435, subclass 357.
- III. Claim 12, drawn to a method of wound healing, classified in class 424, subclass 84.

B. The inventions are distinct, each from each other because of the following reasons:

Inventions I-III are independent and distinct, each from the other, because the methods are practiced with materially different process steps for materially different purposes and each method requires a non-coextensive search because of different starting materials, process steps and goals. The methods of Inventions I and II can be performed in vitro, whereas the method of Invention II is performed in vivo. The method of Invention I generally involves recruiting fibroblasts, whereas the method of Invention II involves not only engrafting fibroblasts, but engrafting them specifically in a heart.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter as defined by MPEP § 808.02, the Examiner has *prima facie* shown a serious burden of search (see MPEP § 803). Therefore, an initial requirement of restriction for examination purposes as indicated is proper.

C. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR § 1.48(b) and by the fee required under 37 CFR § 1.17 (h).
